

Sharing

I like playing with a lot of different toys. Other children also like to play with toys.

When other kids are around, at school or at home, we can take turns and share toys.

I can have one toy and they can have one. Later, we can trade toys.

Sometimes, I will have to wait for my turn to play with the toy I really want.

It is hard to be patient!

I have to give everyone a chance to play with that toy, too.

This way we can all get along and have fun playing together.

My mum and my teacher are proud of me for sharing and playing nicely.

I am happy when I can play with friends and my family- it's FUN!
